BOTHA QUILTS

According to Reports Printed Today in London Papers, but Government Lacks

CONFIRMING INFORMATION

Decisive Battle Imminent at Phillipstown, Where the British are Closing in on Boers.

DEATH OF WM. M. EVARTS THIS A.M.

London, Feb. 28.—All the papers of the capital print news of Gen. Botha's surrender. The war office, however, has no confirmation yet of such an occurrence.

Gens. DeWet and Herzog's combined forces are near Phillipstown, where the British are closing in on them. A decisive battle is imminent.

London, Feb. 28.—The Daily Chronicle, which has received a report it believes trustworthy, though it has no means of verification, that Gen. Botha has surrendered to Lord Kitchener, says: "According to earlier information, Gen. Botha was to have been received at Lord Kitchener's camp about the end of this week, but if the foregoing report is correct, events have ripened with unexpected rapidity."

Bonnett Burleigh wires to the Daily Telegraph from DeAar, under Tuesday's date, as follows:

"The Orange river remains high. Our columns are tightening their grip upon Steyn, DeWet and Herzog, near Petrusville, and our patrols have been engaged. I anticipate that a general action is about to be fought, and that the collision is likely to prove serious."

Special dispatches from Pretoria locate Gen. Botha with a small force north of Middleburg. They point out that he is probably making for the headquarters of Commandant Viljoen and the seat of the Boer government beyond Rosenkraal.

Lord Kitchener has been at Middleburg for the last few days, but there is no indication from any quarter other than that relied upon by the Daily Chronicle that Gen. Botha has surrendered.

Gen. Kitchener, telegraphing from Middleberg, in the Transvaal, on the railroad between Pretoria and Portuguese East Africa, under date of February 27, says:

"The following additional captures are reported by French up to February 20: Three hundred Boers surrendered; a 19-pounder Krupp gun, one howitzer, a Maxim, 2,500 rounds of small arms' ammunition, 153 rifles, 388 horses, 834 truck oxen, 5,610 cattle, 9,800 sheep and 297 wagons and carts. The Boers' casualties were four killed and five wounded."

Indianapolis, Feb. 28.—The militia is in arms awaiting the appearance of a mob, which is threatened, to lynch Doc Read, a negro, who is in jail charged with criminally assaulting Miss Darter.

New York, Feb. 28.—Wm. M. Evarts, ex-United States senator and ex-secretary of the interior, and one of the country's most famous lawyers, died this morning of pneumonia. He had been feeble some days, but it was thought until last night that he was doing well. There is deep sorrow over the death of the beloved and esteemed gentleman.

A REPORTED WEDDING.

It was reported today that a well known manufacturer who has just moved to Illinois, and a widow of South Ninth street, were to be married today, but so far as is known they have not married thus far.

THE ARMY BILL.

Washington, Feb. 28.—The house and senate conferees reported an agreement on the war revenue reduction bill and the senate agreed to the report. It is a compromise all along the line, but repeals stamps on bank checks, express receipts and telegraphic messages and other important matters.

**WAS PASSED BY SENATE LAST
NIGHT BY DECISIVE VOTE.**

Washington, Feb. 28.—The army appropriation bill was passed by the senate last evening. There was a warm discussion but the bill went through by a vote of 43 to 18, after all amendments had carried by decisive votes. The bill gives power to the president in the Philippines and also carries the Cuban rider. The discussion developed much opposition to ratifying what he had done.

Pat O'Brien Was Recognized to Appear Before the Grand Jury in April.

OTHER POLICE COURT NEWS OF TODAY

David Hall, colored, who has been living here for a number of years, was arrested this morning on a charge of bigamy.

Frankie Hall, of Milan, Tenn., arrived with the necessary records yesterday. They show that he married her in Tennessee in 1883.

The records in the county clerk's office here show that he was married to Ida Wright on December 1, 1887, by Rev. W. S. Baker. The claim is he was never divorced from his first wife.

The defendant's bond was fixed at \$100 and he will be tried tomorrow.

Hall was arrested by Officers Gray and Clark.

Pat O'Brien, the river man charged with stealing \$20 at the Little Metropolis Hotel from John Hart, of Illinois, night before last, was this morning recognized to appear before the next grand jury. There was no other evidence against him, and he will probably leave town and it will be the last heard of him. Hart failed to show up today.

James Halpin, for being drunk and disorderly, was taxed \$5 and costs by Judge Sanders this morning.

The case against Andrew Washington, colored, charged with stabbing John Napper, colored, is set for tomorrow.

In the Hoo Hoos everything runs in 8's, and they meet but once a year and pay \$9.99 dues.

After the concatenation there will be a big banquet at the Palmer House.

G. A. R. DECLINES TO PARTICI-
PATE IN INAUGURAL PRO-
CESSION.

Washington, Feb. 28.—Veteran organizations of the civil and Spanish wars have officially declined to participate in the inaugural parade on March 4.

The decision affects organizations in two G. A. R., the Union Veterans' union, and the Spanish war veterans.

The dissatisfaction of the veterans with the place assigned them in the parade is responsible for this action. It was their wish to act as the personal escort to the president. Grand Marshal Green on the contrary assigned them to a position in the line ahead of the civic organizations and following the national guard.

Gen. Daniel Sickles today notified Gen. Green that the veterans had declined to participate in the parade and tendered his resignation as marshal of the veteran division.

RESIGNATION OF FRANK A.

VANDERLIP THOUGHT TO.

FORESHADOW CHIEF'S

DEPARTURE.

Was the Tower of Babel built on one of the Philippine islands? If not why the 193 languages used by the Filipinos?

In justification of the expenditure of a filtering plant for any water works it can safely be said the filterer is "cheaper than dirt."

The inhabitants of the Philippines speak 193 kinds of talk or so-called language. One of the reformatory language in that land would seem to be a uniformity of lingo.

Last year the farmers of the United States received \$185,000,000 more for their products than in 1899, and the latter was not a bad year by any means.

The government has completed the publication of the documents of the civil war in 127 volumes at a cost of \$2,750. A double costly story, yet it is one which history will oft find a necessity.

During the first five months of the present crop year the value of cotton exports has reached \$305,000,000, at an average export price of 97c a pound. It is this crop which makes the south so important a part of the nation and gives it the sinews of life.

J. P. Morgan says that the capital issue of the United States steel corporation would be \$300,000,000 in bonds, \$400,000,000 of preferred stock and \$400,000,000 of common stock. Mr. Morgan said no further statements were likely to be made until the syndicate circular was issued.

Ex-Senator Gorman is reported to have pulled the strings that prevented a vote in the senate on the ship subsidy bill. And the governor of Maryland has called an extra session of the legislature to disbandish enough Republicans to make possible the reelection of Gorman to the senate. It is evident that the Democrats in congress need the Marylander in their business.

UNJUST TAXATION.

The Chattanooga Times—published in one of the most progressive and successful cities in the south—gives this good to the south:

"A Kentucky exchange sorrowfully grumbles that but \$33.35 miles of railway were built in that state in 1900; says it's the smallest mileage laid down by any Southern state and regards it as 'not encouraging.' If Kentucky had fostered Goebelism less and decent politics more she would probably have fared better than she has in the material sense. Capital is not apt to go largely to a state that is, so to say, always perched on the ragged edge of anarchy when a campaign is on or the legislature is in session. Decent election methods, a fair ballot, an honest count and no more stealing of the highest offices under the forms of infamous laws will be good for Kentucky."

The Times might have added, also, that capital does not seek investment in a state whose laws are especially directed against it in the way of unjust taxation, as is the case at present in Kentucky. What our state needs most is a system of laws that will treat "corporations" with the same fairness that they are treated in other states—nothing more, nothing less.—Mayville Public Ledger.

LINDSAY AS A LAWYER.

Senator Lindsay is regarded as one of the ablest lawyers in the United States by those who are competent to judge. The leading law journal of America, the American Law Review, says of him:

"The Hon. Wm. Lindsay, United States senator from Kentucky, espoused the cause of territorial expansion and delivered several bar association addresses in favor of that policy. This put him out of joint with the Democratic party of his own state, and he will retire from the senate on March 4 next, and will engage in the practice of law in New York City. He was a judge of the court of appeals of Kentucky from 1870 to 1878, and wrote the first opinion delivered in my court holding that, in granting an application for the appointment of receiver of a railroad, in a suit to foreclose a mortgage thereon, it is competent for the court to annex equitable conditions, such as payment of back wages to persons employed by the company, or of bills for materials and supplies. The Hon. Henry Clay Caldwell was, we believe, the first judge of a federal court to take up this doctrine and act upon it. It is now almost universally recognized in."

The pardoning of Alvey, the gambler, by Gov. Beckham shows the people of Kentucky what they can expect from the Goebel gang at Frankfort. When the fact is recalled that the capital of the state was moved to Seabach's notorious hotel by the Goebel gang, there should be no surprise when murderers and gamblers are pardoned simultaneously with their conviction. Beckham's hypocritical assertion about not pardoning any man convicted by twelve Kentuckians is synonymous of the sincerity of his pledges. Kentucky has a dark future, judging from the actions of our boy governor since his inauguration. It is evident to all that a deal was made with the gambling and vicious element in Louisville for their votes last fall. Every decent voter for Beckham should hang his head in shame, to think of turning down a man like John W. Yerkes for such a pliable tool as Beckham.

A LIFE HOMERIC.

By Charles F. Thwing, D. D., LL.

D. President of Adelbert College and Western Reserve University, Cleveland, O.

Among the chief advantages of being a country boy are the advantages of simplicity of life and freedom of conduct. In a simple life the boy eats plain food, wears plain clothes, sits on plain chairs, sleeps in a plain bed room, and associates with plain people. He is free from luxuriant living and elaborate conditions. He knows nothing of the splendor which man makes. The necessities are brought to his home every day and the natural means of filling them are present. His life is quite Homeric. He waits on himself. If he wants anything done, he does it himself. He earns the little spending money which he has, and often transmutes that little spending money into money saved. He comes close to nature in his moods of rest and reflection and he works hand in hand with nature in his every endeavor. He is content with little, or rather his little he converts into much. Such a life and condition help to make a man who emphasizes the realities of character and who is able to put proper values on all the elements which go to the constituting of the great world of humanity.

A second advantage is the advantage of freedom of conduct. How free is the country boy! The fields and the forest are his playgrounds, the ponds his race course; the trout brooks his private preserve. The steers and the colts are his co-workers, and all the children of the neighborhood are his playmates. His nursery is the mows and the bays of the barn, and the woodshed, which unites the house and the barn, is his trotting park. He is not "cribbed, cabin'd and confined." His horizon is not a sky-line made by rows of brick blocks. He sees the sun rising above the great valleys and he sees it set behind the everlasting hills. His world is a big world and in it he is free to come and to go.

NEWS AND COMMENT.

In the United States regular army Spanish is spoken fluently by 304 commissioned officers, French by 224 and German by 136. Twenty-three officers speak one or more of the languages of the Americas Indians.

Stephen M. White, ex-United States senator for California, temporary chairman of the national Democratic convention that nominated Cleveland in '88, and substitute chairman of the Chicago convention that nominated Bryan in 1896, is dead at the comparatively early age of 49 years.

When this question was brought to the attention of the treasury department several months ago Secretary Gage asked the attorney general for an opinion. Not only the attorney general, but the solicitor general—and the assistants of both—began the study of the Russian law, and they arrived at a unanimous opinion that it did not provide for a bounty, either direct or indirect on Russian sugar.

The treasury experts who took up the question were also positive in their opinion that Russian sugar was not subject to a counter-vailing duty.

Secretary Gage discovered that the opinions of the attorney general and the solicitor general were against his contention. He withdrew from the department justice his request for legal opinion and acted on his own judgment, though he had been prepared which demolished every argument he made in justification of his act. It was an unprecedented act, and as much a defiance of law as would be an act of the president in defiance of a decision of the supreme court.

There have been ugly rumors of the conspiracy to bring upon the secretary of the treasury to induce him to ignore the opinion of the department of justice, but these are so far only rumors. Gage has many times embarrassed the president by his assumption that the treasury department could be managed like a private bank, but this last act has brought the government face to face with an embarrassing foreign complication, and it is said that his resignation and the repudiation of his act are the only means of settling the questions. By taking the stand he did he embarrassed the state department and insulted the department of justice, and patience has ceased to be a virtue on the part of the president.

It is believed that Gage is to go,

and that the resignation of Vanderlip

is the forerunner of that more important relief of his chief, Secretary Gage. Mr. Vanderlip says that after trip to Europe he will become the president of a large Western corporation.

PROF. SNYDER

IS ELECTED PRINCIPAL OF THE
JEFFERSON SCHOOL.

The Dignified Trustees Enliven the
Scene With Pokers and
Palvering.

The called session of the board of
education last night was a lively one,
Truttees Weille, Terrell, Lally, Nichols,
Mammam, Rose, Taylor, Bauer and Fuller being present.
President Reddick presided.

Chairman Weille, of the district
school committee, announced the re-
signation of Prof. Frank B. May, prin-
cipal of the Jefferson school.

President Reddick called for the
resignation. Trustee Weille, being un-
able to produce it, was declared out
of order. Trustee Weille claimed a
resignation had previously been ac-
cepted without being before the board,
and his remarks incensed Secretary
Rose, who jumped to his feet and said
that he, the secretary, had the resigna-
tion Mr. Weille referred to. One
word brought on another and when
they had advanced on each other and
Mr. Rose reached for a poker and Mr.
Weille into his back pocket, they
were seized by Trustees Terrell and
Bauer and Mammam and Fuller res-
pectively. After President Reddick
had succeeded in restoring peace, the
resignation of Prof. May was read and
accepted.

Mr. Terrell asked if any secret can-
vas had been held to choose Prof.
May's successor. President Reddick
said he understood there had.

When a poll was taken, however, each
member denied participating in such a
census.

The names of the following applic-
ants were then placed before the board:
J. E. Snyder, Morganfield; L. C.
Grimes, Orangeburg, Ky.; H. H.
Randall, Concord, N. H.; Clarke M.
Mathias, Murray; A. F. Archer, Lake
City, Fla.; J. M. R. Green, Water
Valley, Ky.; A. J. Meadows, Orange-
burg, S. C.; Miss Mary Dodson, Pa-
ducah; Professor Kelley, J. W. D.
Bourier, Robert Schultz, and several
others.

The matter of examining the suc-
cessful candidate came up. The rules
require that a teacher must pass an ex-
amination before being elected to the
schools, but President Reddick sug-
gested an examination afterwards.

Trustee Weille wanted a suspension of
rules. The motion to suspend, after
considerable discussion, was lost by
a vote of 5 to 5.

Prof. J. E. Snyder, of Morganfield,
received nine votes and was declared
elected. Trustee Taylor voted for
Miss Dodson.

Trustee Weille then apologized to
the board and to Secretary Rose for
the little episode previous.

Secretary Rose also apologized to
the board and to Mr. Weille.

The proper committee was instruc-
ted to conduct the examination of Prof.
Snyder, and the board adjourned to
meet Tuesday in regular session.

CONTAGION AND INFECTIOUS

LA GRIFFE IS INFECTIOUS BUT
NOT CONTAGIOUS.

Contagious diseases are communi-
cated from one person to another; in-
fectious diseases are conveyed through
the air.

Smallpox is a contagious disease; la-
grippe is infectious. When an ep-
idemic of grippe is prevailing it is in
a political condition to receive her
independence. Dr. W. C. Phelps, of
Buffalo, said:

The only safeguard is to keep the
system in the highest possible condi-
tion of health and on the first appear-
ance of a cold in the head to use some
anti-septic like Stuart's Catarrh
tablets freely. A tablet taken every
hour or two for a couple of days will
be sufficient to break up the attack.

La grippe attacks the weakest part
of the system, it may be the lungs,
heart, liver, stomach or kidneys, but
wherever it finally locates it almost
invariably starts with cold in the head
and throat or in other words, the dis-
ease at the beginning is acute catarrh.

This is the reason Stuart's Catarrh
Tablets have been so successful in
breaking up attacks of grippe. The an-
tiseptic properties of the remedy de-
stroy the germs before the whole sys-
tem is thoroughly infected.

Dr. Howard, the journalist, said:

If the United States tries to leave

Cuba next June, as is talked of, they'll
have to get back there pretty quick to

avert a state of anarchy, which would

undoubtedly follow their withdrawal.

Capital is apprehensive. Every-

thing is dull, as every one is awaiting

the trend of events. There is no trade.

All are waiting. The theaters only

open spasmodically. Americans and

the capitalists want the retention of

United States troops. . . .

They are composed of antisepsics

and may be used by little children as

freely as by adults and with great ben-
efit."
